ABSTRACT

This guide is designed to help Minnesota high school students in their educational planning and to encourage colleges and universities to state clearly their policies in granting college credit for successful completion of Advanced Placement and International Baccalaureate (IB) examinations in high school. The guide also represents certification of these policies to the Minnesota Department of Children, Families & Learning. The IB policies of most Minnesota institutions of higher learning are represented in this guide. The common policies of institutions that are part of Minnesota State Colleges and Universities are outlined, followed by policies of 18 other public colleges and 19 private colleges and universities. (SLD)

A Note to **International Baccalaureate** Students, Counselors, and Administrators:

The publication of this guide is intended to aid high school students in their educational planning and to encourage colleges and universities to state clearly their policies in granting college credit for successful completion of Advanced Placement (AP) and International Baccalaureate (IB) examinations in high school. This guide also represents certification of these policies to the Department of Children, Families & Learning.

International Baccalaureate policies of most Minnesota institutions of higher learning are represented in this guide. We recognize that the guide may be incomplete both in the information provided and in the institutions covered. With the publication of this information at regular intervals in the future, we expect that colleges and universities will update their policies and move toward a more specific indication of course equivalent credits. Institutions not included may give credit, but have not made their policies available for this edition of the guide.

Institutions that are part of Minnesota State Colleges and Universities (MnSCU) have adopted a policy establishing common practices among these institutions for awarding credit based on student performance on International Baccalaureate examinations. The policy as stated on the following page will be observed by member institutions; however, many have individually approved additional credit-equivalent guidelines which are spelled out in this guide.

Your response, suggestions, and comments are welcomed.

Marlys Peters-Melius
State AP and IB Coordinator

BOARD POLICY 3.16

Chapter	3. EDUCATIONAL POLICIES
Section	16. International Baccalaureate Credit

3.15 INTERNATIONAL BACCALAUREATE CREDIT.

Part 1. Purpose.

The purpose of this policy is to establish common practices among all Minnesota State Colleges and Universities for awarding credit based on student who have completed an International Baccalaureate (IB) diploma in high school.

Part 2. Purpose.

The International Baccalaureate (IB) program is an internationally recognized program through which secondary students complete a comprehensive curriculum of rigorous study and demonstrate performance on IB examinations. The examination for the diploma covers six subjects, three or four which must be at the higher level others at the subsidiary level. Students may present a full IB diploma or a certificate recognizing specific higher level or subsidiary level test scores.

PART 3. Advanced Placement Policy.

1. Students who complete an IB diploma with a score of 30or higher shall be offered 12 quarter or 8 semester credits for each of the three higher level examinations, plus 3 quarter or 2 semester credits for each of the subsidiary exams, for a total of 45 quarter or 30 semester credits.

2. Credits shall be transcribed according to the same rules as those used for Advanced Placement (AP) exams. Where a test covers material that is substantially similar to an existing university course, credit for the course shall be awarded. Where a test covers material that is deemed to be college level but us not substantially similar to an existing course, elective credits shall be awarded in appropriate departments.

3. No credit shall be given for subsidiary level exams other than those included as part of the IB diploma as described above, but students may receive credits as above for any higher level exams with a score of 5 or higher.

Date of Implementation: July 17, 1996
Date of Approval: July 17, 1996

Inver Hills Community College – Inver Grove Heights

Exam	Score	Course Equivalency	Credit
Art (HL)		1. Students who complete an IB diploma with a score of 30 or higher shall be offered 8 semester credits for each of three higher level examinations, plus 2 semester credits for each of the subsidiary exams, for a total of 30 semester credits. 2. Credits shall be transcripted according to the same rules as those used for Advanced Placement (AP) exams. When a test covers material that is substantially similar to an existing Inver Hills course, credit for the course shall be awarded. When a test covers material, which is deemed college level, but is not substantially similar to an existing course, elective credits shall be awarded in appropriate departments. 3. No credit shall be given for subsidiary level exams other than those included as part of the IB diploma as described above, although students may receive credits as above for any high level exams with a score of 5 or higher. HL- Higher Level requires 240 hours of instruction – a 2-year course. SL-Standard Level requires 150 hours of instruction-a 1-year course	

For additional information contact: Dr. Cheryl L. Frank, President, 651/450-8641.
